TEXAS DEPARTMENT OF PUBLIC SAFETY—UNIFORM CRIME REPORTING

CRIME IN TEXAS : 2008

Annual Report of 2008 UCR Data Collection:

Crime in Texas 2008 Overview

The major crime rate in Texas decreased nearly 3 percent in 2008, according to data compiled by the Texas Department of Public Safety's Uniform Crime Reporting Program.

Compared with 2007, the crime rate—the number of crimes per 100,000 population in Texas—decreased 2.9 percent in 2008. The violent crime rate decreased .6 percent in 2008 from 2007. The property crime rate decreased 3.2 percent in 2008.

"The reduction in our overall crime rate is a result of Texas' tough approach to law enforcement. I commend the brave men and women of local law enforcement who continue to work every day to keep our state and its citizens safe ," said Col. Lamar Beckworth, interim director of the DPS.

The total number of major crimes committed was down 1.2 percent in 2008 compared with 2007. Of the seven index crimes, murder was down 3 percent; rape was down 5.1 percent.

The total number of arrests in Texas increased 1.6 percent in 2008. The number of juvenile arrests decreased 1.2 percent, while adult arrests increased 2.0 percent.

The Texas Uniform Crime Reporting Program also collects statistics on hate crimes and family violence incidents.

In 2008, Texas law enforcement agencies reported 246 incidents of hate crimes involving 276 victims and 233 offenders.

Law enforcement agencies reported 193,505 family violence incidents involving 208,073 victims and 203,682 offenders in 2008.

STATISTICAL CRIME ANALYSIS

The UCR Program

In an effort to quantify the increases and decreases in the number of crimes committed in Texas, the Uniform Crime Reporting program (UCR) collects reports of crimes and arrests from Texas law enforcement agencies. This information is printed in *Crime in Texas* and in periodic special news releases.

Crime Index

To track the variations in crime, the UCR data collection program uses a statistical summary tool referred to as the Crime Index. Rather than collecting reports of all crimes that were committed in a particular year, UCR collects the reports of seven index crimes. The crimes in this group are all serious, either by their very nature or because of the frequency with which they occur, and present a common enforcement problem to police agencies. Crimes within this index can be further categorized as violent crimes, which include murder, forcible rape, robbery and aggravated assault, or as property crimes, which consist of burglary, larceny-theft and motor vehicle theft. By reducing the overall occurrence of crime to this Crime Index, the annual comparison of crime trends is simplified. Although arson is an index crime in that the number of reported offenses are collected, arson is not included in the Crime Index.

Index Crime Volume

The total estimated number of Index Crimes reported for 2008 was 1,093,428. This volume of crime represents a decrease of 1.2 percent when compared to 2007.

Index Crime Rate

The crime rate reported by UCR is defined as the number of crimes committed per 100,000 population. This mechanism allows comparisons between periods of time to be made without being affected by population swings. For 2008, the Texas Crime Rate was 4494.7 crimes per 100,000 population, a 2.9% decrease from 2007. The crime rate is based on the 2008 Texas population of 24,326,974

Data Estimation

Although the Texas UCR program enjoys a high rate of participation among Texas' law enforcement community, not every agency reports its crime information. To provide data that is comparable to other years, it is necessary to estimate the information for non-reporting agencies. In 2008, 1,031 law enforcement agencies participated in the UCR program representing 99.9 percent of the population.

Crime by Volume

Offense	2008	2007	% Change
Murder	1,373	1,415	-3.0%
Rape	8,004	8,430	-5.1%

Property Crime Total	**3986.6**	**4119.9**	**-3.2%**
Index Crime Total	**4494.7**	**4631.1**	**-2.9%**

Arson

In 2008, reported arson offenses increased 6.0 percent from 2007. Property damage from arson was reported at over $128 million in 2008.

- 6,363 arsons in 2008
- 6,003 arsons in 2007

Property Value

The value of property stolen during the commission of Index Crimes in 2008 was more than $2.0 billion.

The value of stolen property recovered by Texas law enforcement agencies in 2008 was more than $552 million.

MOST REQUESTED TEXAS ARREST TOTALS

Texas Arrests	2008	2007	% Change
Murder	895	828	+8.1
Aggravated Assault	24,022	24,459	-1.8

HATE CRIME

The Texas Hate Crime Act defines hate crimes as crimes motivated by prejudice and hatred, including incidents for which statistics are kept under the federal Hate Crimes Statistics Act. The federal law defines hate crimes as crimes that manifest evidence of prejudice based on race, religion, sexual orientation, ethnicity or disability.

The Texas Hate Crimes Act directs every law enforcement agency within Texas to report bias offenses to the Department of Public Safety.

Bias Motivation

The largest percentage of hate crime reports were racial in nature. The second largest was sexual orientation. The third most common bias was ethnicity/national origin. The fourth most common bias was religious and the fifth was disability.

Volume

The total number of reported Texas hate crime incidents in 2008 was 246. This represents an increase of 1.2 percent when compared to 2007. These incidents involved 276 victims, 233 offenders and resulted in a total of 258 offenses.

HATE CRIME VOLUME

	2008	2007	% Change

Offenses

Offenses in the hate crime data collection program are defined in accordance with federal Uniform Crime Reporting definitions and do not necessarily conform to Texas state definitions. Complete offense definitions are available in the *Crime in Texas* annual publication or from UCR upon request.

Hate Crime offense information falls into the eight index crimes—murder, rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft and arson—plus simple assault, intimidation and vandalism. Of these offense categories, aggravated assault, simple assault, intimidation and vandalism accounted for 91 percent of all bias crime offenses in 2008.

HATE CRIME OFFENSES

Murder	0	0.0
Robbery	8	3.1
Aggravated Assault	32	12.4
Burglary	8	3.1
Larceny-Theft	3	1.2
Motor Vehicle Theft	0	0.0

Simple Assault	50	19.4
Intimidation	44	17.1
Vandalism	110	42.6
TOTAL	**258**	**100%**

Victims

Information on the victims of hate crimes is limited to victim type. While the bias motivation information identifies the offender's bias, the victim may not actually belong to the group the offender sought to harm. For this reason, information on the victim's group membership is not recorded.

Victim type in the hate crime data collection program is listed as: individual, business, financial institution, government, religious organization, other and unknown. Of the victim types, individuals were the main hate crime target.

HATE CRIME VICTIM TYPE

Victim Type	Volume	%
Individual	212	82.2
Business	16	6.2
Financial Institution	0	0.0
Government	9	3.5
Religious Organization	15	5.8

FAMILY VIOLENCE

The Texas Family Code defines family violence as an act by a member of a family or household against another member that is intended to result in physical harm, bodily injury, assault, or a threat that reasonably places the member in fear of imminent physical harm. The law excludes the reasonable discipline of a child. By definition, "Family" includes individuals related by consanguinity (blood) or affinity, (marriage or former marriage), biological parents of the same child, foster children, foster parents, and members or former members of the same household (including roommates). Senate Bill 68 of the 77th Legislature amended the Family Code to include "Dating Violence". The "Dating Relationship" means a relationship between individuals who have or have had a continuing relationship of a romantic or intimate nature.

	2008	2007	Pct Change
Incidents	193,505	189,439	+2.1%
Victims	208,073	201,526	+3.2%

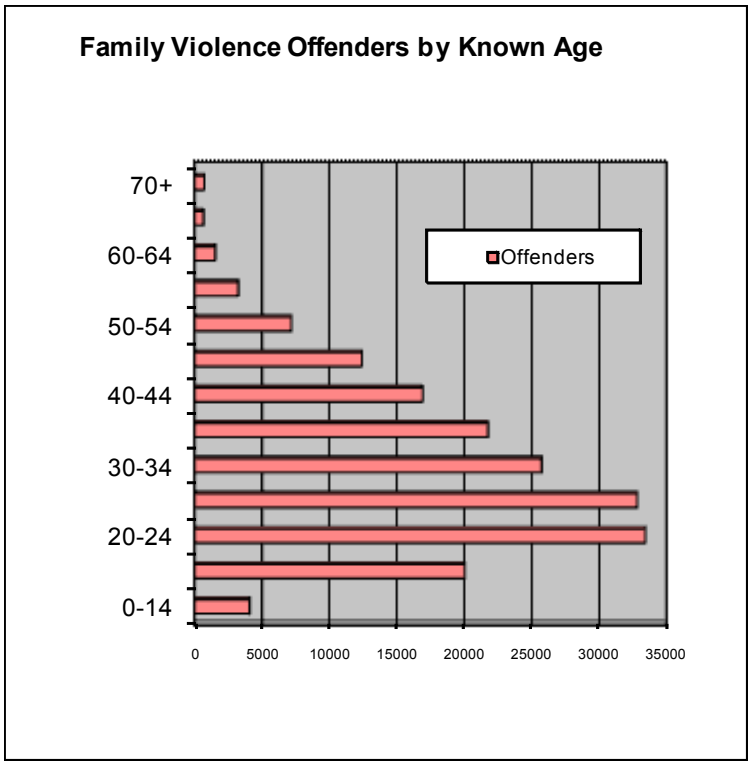
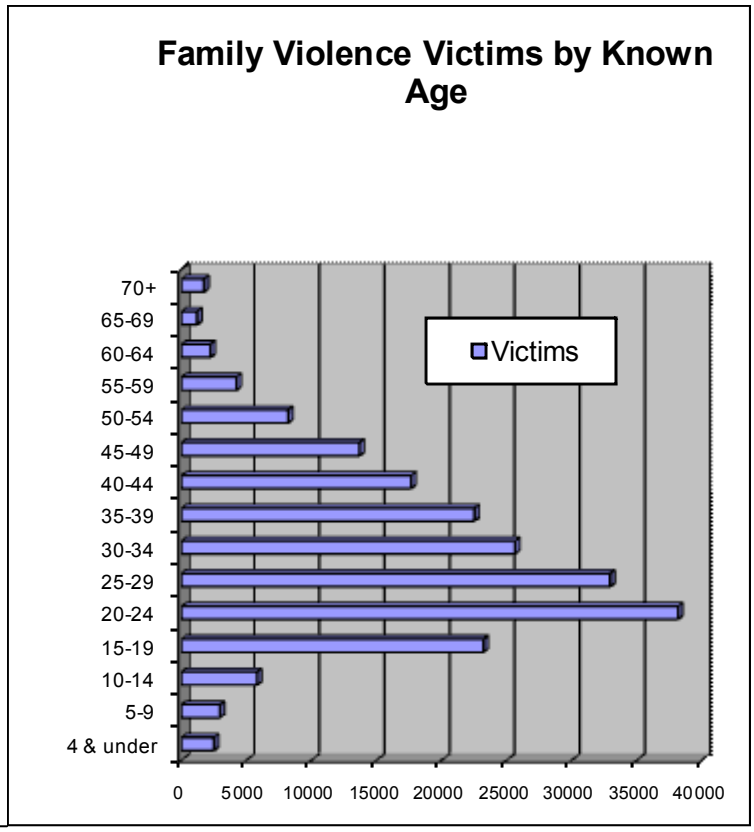
Offenders

In 2008, a reported 203,682 offenders were involved in incidents of family violence.



Victims

Incidents of family violence in 2008 involved a reported 208,073 victims.



Officers

Potential assaults on peace officers are a serious problem inherent to police intervention and investigation of family violence. In 2008, during the course of reported family violence incidents, 342 Texas law officers were assaulted. During this same period 5,184 assaults were made on law officers during all types of police activity.

Offenses

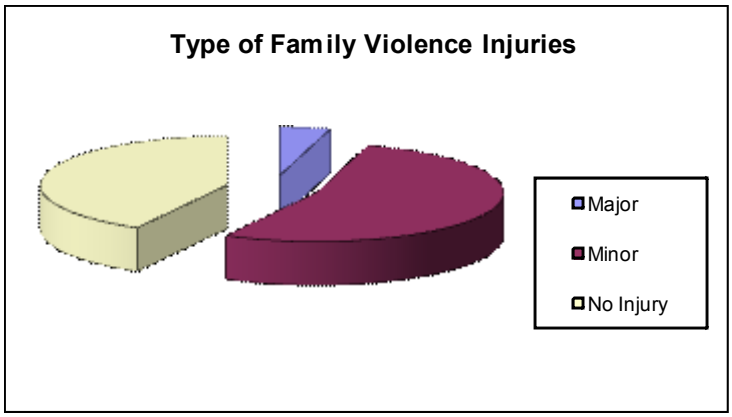
Family violence offense information falls into six general categories: assaults, homicides, kidnapping/abductions, robberies, forcible sex offenses, and non-forcible sex offenses. Of the six main categories, assaults accounted for 96.9 percent of all offenses.

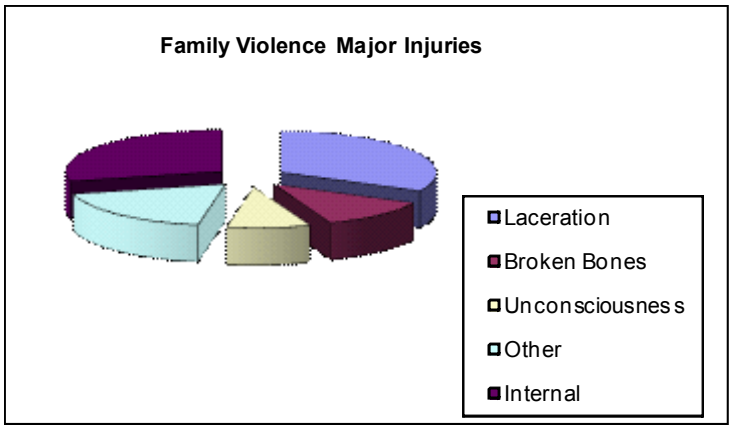
FAMILY VIOLENCE OFFENSES

Type	Group %	Offense	%
		Aggravated Assault	14.9
Assaults	96.9	Simple Assault	73.3
		Intimidation	8.7
		Murder & Nonnegligent Manslaughter	0.1
Homicides	0.1	Negligent Manslaughter	0.004
		Justifiable Homicide	0.0
Kidnapping	0.3	Kidnapping/Abduction	0.3
Robbery	0.2	Robbery	0.2
		Forcible Rape	0.9
Forcible		Forcible Sodomy	0.2
Sex Offenses	2.3	Sexual Assault with Object	0.2
		Forcible Fondling	1.0
Non-Forcible		Incest	0.07
Sex Offenses	0.2	Statutory Rape	0.1

Injuries

The extent of injuries sustained by victims of family violence are determined by the responding officer. Therefore, all injuries are noted at the time of the report. If later medical attention indicates that the injuries were more or less severe than noted by the responding officer, this information is not included in the family violence report. The majority of reported injuries (54 percent) were minor; in 42 percent of family violence reports "no injury" was recorded. Major injuries were reported in 4 percent of the cases. Of the major injuries, severe lacerations were the most common at 32 percent. Possible internal injuries were reported in 28 percent of the cases and apparent broken bones were noted in 11 percent of the cases.





Weapons

The most common weapon involved in family violence cases was physical force through the use of hands, feet and fists (strong arm), which accounts for 78 percent of the incidents. The Texas Family Violence law considers the use of threats and intimidation to be serious enough to report and, thus, 9 percent of the reports were listed as involving no weapons. Knives or cutting instruments (4 percent), blunt objects (3 percent), firearms (1 percent) and other (5 percent) account for the remaining cases. Included in the "other" weapons category are: motor vehicles, poison, explosives, fire, drugs, unknown, and miscellaneous weapons.
